

WELCOME TO THE
NOWY TOMYŚL
DISTRICT

TOURIST DIVERSITY OF THE NOWY TOMYŚL DISTRICT

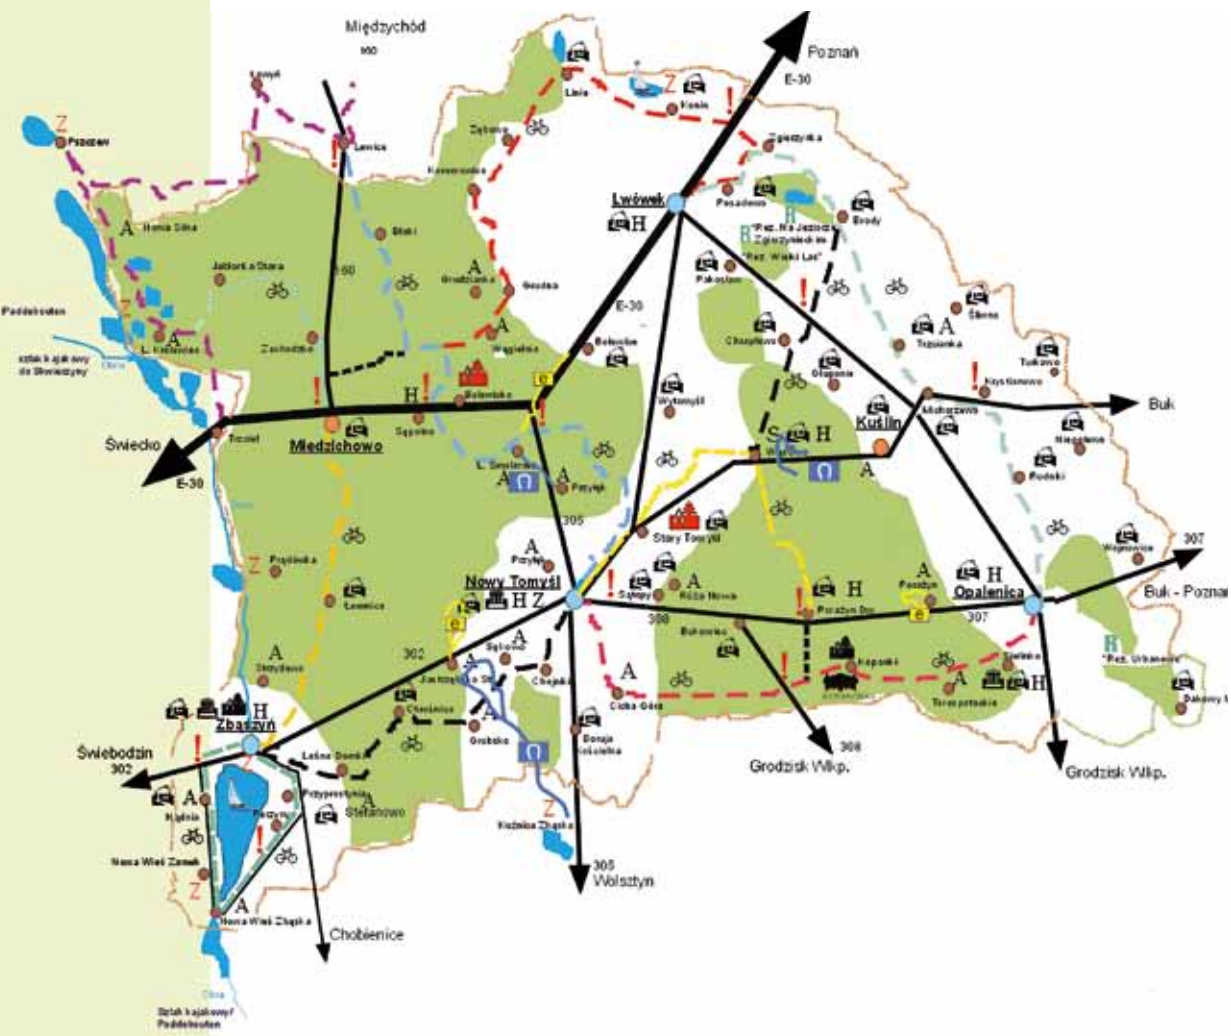

The Nowy Tomyśl District is an important economic centre of the Wielkopolska Voivodeship, an area open to investors, with an excellent educational offer – however, these are only some of its assets. Thanks to the comprehensive development of tourism and agrotourism the district has been able to protect its rural lifestyle, cultivate local traditions and preserve intact local Dutch buildings. A varied landscape, picturesque palaces and hotels, regional and traditional dishes as well as many additional attractions and activities will make your stay for an unforgettable experience.

LOCATION

The location of the Nowy Tomyśl District is very favourable: it is located along the East-West route, close to the Poznań – Ławica international airport. Both the modernised railway line Paris – Berlin – Warsaw – Moscow and the national road no. 2, which is a part of the international road E-30 (Berlin – Moscow) run across the district. The most recent solution increasing transport convenience in the district is the A2 motorway.
